| <b>Date</b>          | 5 July 2026                                |
| <b>Team ID</b>       |                                            |
| <b>Project Name</b>  | Voice-Based Concept Understanding Analyser |
| <b>Maximum Marks</b> | 4 Marks                                    |

### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

| SAYS                                                                                                                                                                                                                                                                     | THINKS                                                                                                                                                                                                                                                 |
