

Brainstorming & Idea Prioritization Template

S.No	Team Member	Idea / Suggestion	Category	Group No.
1.	Shaik Mohammad Sameer (Team Leader)	Project architecture design, Speech-to-Text integration using Whisper, Semantic similarity analysis using Sentence-BERT, Understanding score calculation, Project workflow planning	AI, NLP, Backend	1
2.	Dhupam Ramanjaneyulu	Python environment setup, streamlit application development, Audio feature extraction using Librosa, Backend integration and testing	Backend, Audio Processing	2
3.	Jayanth Kumar Abbavaram	Streamlit UI design, Audio upload interface, Waveform visualization, PDF report generation, User experience improvements	Frontend, UI/UX	3
4.	Purum Naveen	Functional testing, Performance optimization, Bug fixing and documentation	Testing	4

5.	Shaik Mohammed Adil	Deployment support, Final validation and report preparation	Deployment	5
----	------------------------	--	------------	---

Date	26 June 2026
Team ID	xxxxxxxx
Project Name	Voice-Based Concept Understanding Analyser (VBCUA)
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final ideas to move forward with.

Group No.	Final Idea	Feasibility	Importance	Priority Selected
1	Develop AI-based speech transcription and semantic understanding engine using Whisper and Sentence-BERT	High	High	Yes
2.	Build an interactive Streamlit interface with audio upload, visualization and evaluation dashboard	High	High	High
3.	Generate automated PDF reports with transcript, semantic score, audio metrics and qualitative feedback	High	High	High
